### Frequently asked questions:

#### If my child doesn't spend their allowance does it carry on to the next day?

Free school meal allowance is only for that day and is not cumulative. As a college we have increased our allowance by contributing the £1.50 breakfast club. This must be used before 8:50am otherwise it is removed to allow for the £2.35 allowance.

#### Does my child have to spend all of the money at once?

The free school meal allowance can be spent at break, lunch or across both social times on the same day.

#### What are the best ways to spend the free school meals allowance?

We would recommend that if your child is on site before 8:50 that they maximise their free school meal allowance by possibly spending their £1.50 to purchase a drink or a snack that could be kept for break.

Alternatively, if they regularly use a refillable water bottle, this would allow them to fill this up for free and then be able to use their full allowance on items listed above and not need to purchase additional drinks.
